

STUDENT USE OF THE AMX

THE AMX (Touch screen theatre control) has several functions. Please only use it for the following and **touch nothing else**:

1. House lights – adjustable from the main menu
2. Displaying a laptop projection – plug laptop into wall and use the tech menu, select tech laptop
3. Raising the screen - can be done from the tech menu
4. Enabling sound – use tech menu

Log on to tech menu by selecting the yellow tech button and entering the code you have been given (do not abuse/share this code)

Enabling sound: under the tech menu heading 'Vortex' select **20**

Always return the Vortex to 18 after finishing or sound in lectures will be disabled

Only use the AMX if you have been shown how and abide by the above instructions.
